

## **GENERAL NOTES**

Two Type A Low Intensity Flashing Lights shall be used on each approach in advance of the work area during hours of darkness. One light shall be installed above the barricades and the other above Longitudinal dimensions may be adjusted to fit field the first advance warning sign.

All signs shall be post mounted if the closure time exceeds four days.

All warning signs shall have minimum dimensions of  $36 \times 36 (900 \times 900)$  and have a black legend on an orange reflectorized background.

All work zone signs are required to meet, as a minimum, Type B reflectivity requirements of Table 1091-2 in Article 1091.02 of the Standard Specifications.

When fluorescent signs are used, orange flags are not required.

conditions.

When the distance between the barricade and the intersection is between 1500' (450 m) and 2000' (600 m), the advance sign shall be placed at the intersection. When the distance between the barricade and the intersection is over 2000' (600 m), an additional sign shall be placed at the intersection. The additional sign shall give the distance to the barricade in miles or fractions of

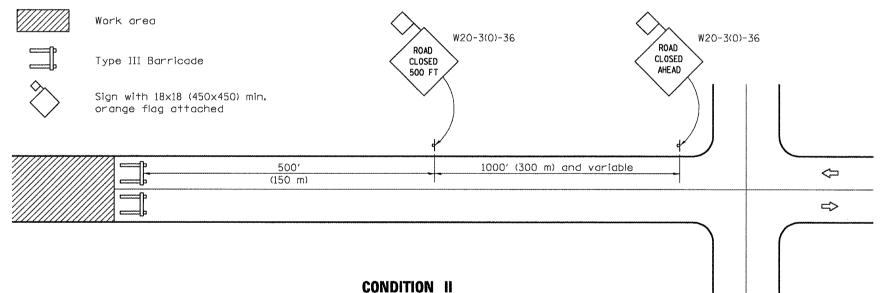

All dimensions are in inches (millimeters) unless otherwise shown.

One (1) message board shall be placed on Hart Lane for one (1) week prior to the closure of Hart Lane to inform motorists of the start date of the closure. This will not be paid for seperately, but shall be included in the price of TRAFFIC CONTROL SPECIAL, STANDARD BLR 21 (SPECIAL)

When distance from closure to crossroad is less than 1500' (450 m)

**CONDITION 1** 

# **SYMBOLS**

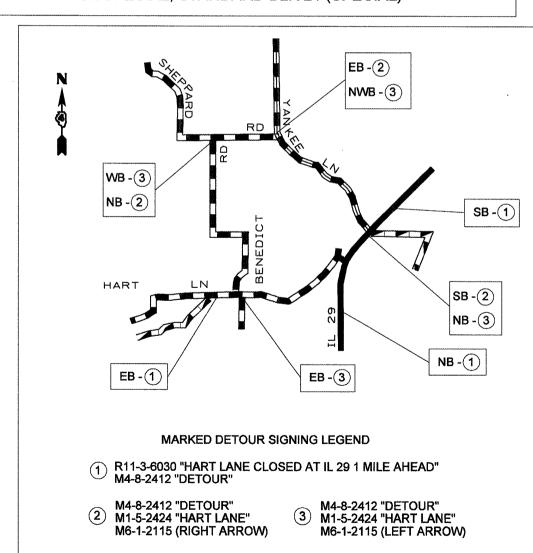

When distance from closure to crossroad is greater than 1500' (450 m)
